Experience

Position Title: Intern - Software Developer (Angular17)
Company Name: eSparse Matrix Solution Pvt Ltd
Dates: 20 December 2023 - 25 April 2024
https://startup-rbbi.vercel.app/
Built a single-page application with reusable components, and implemented responsive design for optimal viewing across devices. Additionally, I contributed to logistics projects, gaining experience in project dynamics and bug resolution.

Position Title: Frontend Developer Intern - Freelance Project
Company Name: sanketbagad.com
Date: 14 June 2024 - Present
https://www.botbyte.in/
Developed dynamic frontend components for botbyteAI, focusing on reusable and maintainable code. Enhanced user experience through responsive design and contributed to optimising project workflows and resolving bugs.

Projects

Title: AI Mock Interview App
ai-mock-interview-ten.vercel.app
Tech Stack: React, Nextjs, Tailwind CSS, Drizzle ORM, Gemini AI, Clerk Auth, Aceternity UI , Shadcn UI, Framer Motion, React Hot Toast , React Webcam , React Hook Speech to Text , Vercel, Github
Description: An innovative platform for job seekers to practise interviews. Users create personalised mock interviews by specifying job details, and the app generates tailored questions. It uses speech-to-text technology to record answers, provide feedback, and rate performance. Completed interviews are stored in a dashboard for review and retakes, facilitating continuous improvement. The app features a user-friendly interface.

Title: Portfolio
https://portfolio-snehalbargaje.vercel.app/
Tech Stack: Vite+React, TailwindCSS, Vercel, GitHub.
Description: This portfolio website is a React application built using Vite for a fast development experience. It showcases my skills and experience as a web developer.
